1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts. Both pigments are found in the chloroplasts of green plants.

1. The first part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them. The list includes names such as "J. H. Smith", "W. J. Jones", and "A. B. Brown", among others. The addresses are also written in cursive and include street names and city names.

BRIEF REPORTS

**►**

1. The first group of people who are likely to be affected by the new law are those who are currently in the process of being deported. This group includes individuals who have been ordered deported but have not yet been removed from the country. They are currently in the process of being deported and are likely to be affected by the new law.

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1861. It is a formal communication, and it is written in a very formal style. The President is addressing the Congress, and he is discussing the state of the Union. He is talking about the economy, the military, and the foreign relations of the United States. He is also talking about the issue of slavery, which was a very important issue at that time. The President is saying that he is proud of the progress that the United States has made, and he is asking the Congress to continue to support the President's policies.
